Wikibooks is a collection of open-content textbooks, which anyone with expertise can edit – including you. Unlike Wikipedia articles, which are essentially lists of facts, Wikibooks is made up of linked chapters that aim to teach the reader about a certain subject.

African Civilizations An Archaeological Perspective

In much of Africa, particularly south of the Sahara, the written record extends only a short time into the past. In "African Civilizations" Graham Connah makes good this deficiency with an examination of the archaeological evidence for the development of technology and increasingly complex societies and the growth of urban areas and states.

...

And he manages a nice mix of archaeological specifics and broader perspectives, staying clear of both the engulfing whirlpool of unconnected detail and the devouring monster of unchecked theory. Afric In African Civilizations Connah surveys the pre-colonial history of tropical Africa, with chapters on seven regions.

town of Gedi in the Kilifi District and within the Arabuko-Sokoke Forest. Gedi is one of many medieval Swahili-Arab coastal settlements that stretch from Mogadishu, Somalia to the Zambezi River in Mozambique. There are 116 known Swahili sites stretching from southern Somalia to Vumba Kuu at the Kenya-Tanzania border. Since the rediscovery of the Gedi ruins by colon

Ruins of Gedi - Wikipedia

The history of Africa begins with the emergence of hominids, archaic humans and—at least 200,000 years ago— anatomically modern humans (*Homo sapiens*), in East Africa, and continues unbroken into the present as a patchwork of diverse and politically developing nation states.

archaeological data as if the West African savanna was in the past a zone that offered opportunities as well as constraints to the people who lived there. Geographical location and environmental factors

Opportunity and constraint: the West African savanna ...

In the second half of the fifteenth-century AD European sailors first set eyes on the southerly coast of West Africa. What they saw was hardly encouraging: from a distance, a vague grey line pencilled in between an immensity of sea and sky; from close-in, either a dangerous, surf-pounded, sandy beach or an uninviting network of mangrove swamp, creek, and river mouth.
