This graph represents the inequality, $(150w + 350c \leq 250,000)$, which describes the cost constraint in this situation. Let (w) represent the number of acres of wheat and (c) represent the number of acres of corn.. The inequality, $(w + c < 1,200)$ represents the total area constraint in this situation. On the same coordinate plane, graph the solution to the inequality you wrote.
