The Loon (Argus) pulse jet demonstrated at the Planes of ...

A pulsejet engine (or pulse jet) is a type of jet engine in which combustion occurs in pulses.A pulsejet engine can be made with few or no moving parts, and is capable of running statically (i.e. it does not need to have air forced into its inlet, typically by forward motion). Pulsejet engines are a lightweight form of jet propulsion, but usually have a poor compression ratio, and hence give ...

Pulsejet - Wikipedia

This is the project I have been working on for the past few weeks. It is a 20 lbs thrust pulse jet engine with 32 real Argus type valves. This it a small version of the German V1 buzz bomb engine. I had to build my own test equipment so I could test valves to make sure they would work. I had to make several mill and drill fixtures too.

Building a 20 lb Thrust Pulse Jet Engine with Argus Valves ...

PULSE JET PROOF OF CONCEPT ASSEMBLY INSTRUCTIONS. Cut-out aluminum valves 1 ¼" x 1 ½". Mark a 6" circle on the ¼" x 12" x 18" acrylic sheet. Drill four 1" holes at 12, 3, 6, 9 o'clock position on the marked circle. Mark and drill holes for mounting valves as seen in picture. Use undersized bit and tape holes and thread acrylic with #8 tap.
