When undertaking an air conditioning installation, you shouldn't use a pipe bender on the copper pipe. This is because units use ½-inch pipe and the bender would simply crush it. Instead, you need to cut the insulation and pull it apart to expose the pipe. From here, the bending should be done very slowly and carefully.

Air Conditioning Installation Guide | DoItYourself.com

A mini-split system can be installed in a home, a garage, a cabin or a shed. Some offer heating as well as cooling, and some include multiple evaporators to serve multiple rooms. Depending on features and size, most DIY mini-splits cost from \$700 to \$2,000.
