Language, Proof and Logic contains three logic programs (Boole, Fitch and Tarski's World), and an Internet-based grading service (which is free to students who purchase the package).

Language, Proof and Logic

laws of logic it becomes crucial to understand just what the laws of logic are, and even more important, why they are laws of logic. These are the questions that one takes up when one studies logic itself. To study logic is to use the methods of rational inquiry on rationality itself. Over the past century the study of logic has undergone rapid ...
