We're breaking tradition and challenging the norm of metallic solutions. Fiber Glass Systems delivers the composite solution your project requires while exceeding expectations in weight savings and corrosion resistance.

Fiber Glass Systems - NOV

Reinforce concrete after tying the steel bars on the outside and top of the pipe group. Generally, the concrete is encapsulated at the part crossing the obstacle or too close to the road surface. The joint of the curved pipe should be in the straight section as much as possible. If it cannot be avoided, the joint must be encapsulated.
