The Maternal Newborn Nursing Certification (RNC-MNN) Review Course provides a comprehensive and up-to-date review of maternal newborn nursing care based on the RNC-MNN Exam content outline. Participants receive information that will not only promote certification exam success, but will also enhance clinical nursing practice.

Maternal Newborn Nursing Certification Review Course

The Journal is interested in original research in the area of maternal and child health, both within the US and from other countries. As this is primarily a journal devoted to population health, we are not interested in clinical case studies, in papers that are exclusively clinically focused, or in research that does not have an obvious public health focus.

Maternal and Child Health Journal | Submission guidelines
