The NX5 and NX7 weigh in at 44 pounds each, while the NX9, with its larger lens, tips the scale at 48 pounds and adds about an inch of depth compared with its smaller siblings. The most obvious upgrade in the DLA-NX7 is the new 0.69-inch native 4K D-ILA imaging device, one each (as usual) for the red, green, and blue primaries.

As editor Rob Sabin noted in his review of the \$8,999 JVC DLA-NX7 last year, JVC has only one or two serious competitors in the expensive but not obscenely-priced front projector market (\$5000-\$10,000). JVC has long set the mark for black levels, a parameter critical for producing rich, saturated images. That remains true even now, but the big JVC news lately is the NX line's native 4K ...

Save 5% off both. Add an A/V Receiver and the savings increase to 7% off all components. Add at least 3 Speakers and that discount jumps all the way up to 10% off all bundle items. The Build-A-Bundle discounts are on top of any sale pricing or current promotions, so items on sale will net you even more of a discount.

### **Da-Lite Projector Screens | ProjectorScreen**

The NX7 is accurate within one yard of any target and can measure distances to the 1/10 of a yard. Want to know whether it's 45.9 yards to the bunker vs. 45.6 yards? We have no idea why you would, but the NX7 has your back. To lock onto a target with the NX7 you simply push a button on the top of the device. A circle with crosshairs will appear.
