Honda makes small engines with displacement from 25cc to 688cc for power products as small as water pumps up to vehicles like dune buggies and tractors. Pressure washers fall in the middle with common engines being in the range of 160cc to 390cc. All of which are emission compliant to EPA and CARB standards.

HONDA POWERED PRESSURE WASHERS - The Complete Guide

An exclusive Honda rotary-slinger lubrication system keeps oil in a completely misted state and circulates it using pressure fluctuations generated by the movement of the piston. Built-in passages effectively return the circulated oil to the oil reservoir from every part of the engine.

Gas Pressure Washers / Power Washers | Kärcher

Yeah, just went thru that with a GX340 engine on my pressure washer - the thing acted like a fuel problem. It would start and run OK at idle, but under load it would run maybe 15-20 seconds and die - if I was quick enough, choking it would SOMETIMES keep it from dying. Checked the in-tank fuel filter, looked NEW.Pulled float bowl, flushed out everything with the nastiest carb cleaner I could ...
