Helmets Archive - SHARP

SHARP 4 & 5 Star Helmet Reviews. SHARP is an independent crash helmet safety test funded and run by the UK government that puts ECE 22.05 approved helmets through a more rigorous extra test. It's a bit like the Snell test in the US, but arguably more real-world focused. While there are lots of differing opinions about how 'real world' some of the testing is, if you're trying to find the safest helmet for your money, then SHARP is about as good as it gets.

crash helmets scoring 4 or 5 stars in SHARP crash helmet ...

Publication of new helmet rating 30th March 2020. SHARP has today published safety ratings for the Arai Renegade V. This takes the total number of helmets that have been rated by SHARP to 479.

News - SHARP - SHARP - THE HELMET SAFETY SCHEME

A relative newcomer to the safety game, the SHARP Helmet Safety Scheme is the first organization to go beyond a "pass/fail" certification for motorcycle helmets. Instead, SHARP tests each helmet using multiple impact points and energy levels, and then issues a "star rating."

Helmet Safety Ratings 101 - RevZilla

For this guide, we set ourselves a challenge: to find the cheap motorcycle helmets for bikers on a budget. We've set £100 as our maximum spend. Even though we've picked helmets on a tight budget, we haven't sacrificed quality, features or functionality. Each one of our helmets has been through the SHARP helmet rating.

Cheap Motorcycle Helmet Guide - Biker Rated

Compare your result against a helmet's size chart to determine which size you need to order. RevZilla publishes both metric and Imperial measurements, so don't sweat the conversions. 3. Try the helmet on. So you know what style of helmet you'd like, as well as your measurements and head profile. That should narrow your search down to a ...

How to size and buy a motorcycle helmet - RevZilla

For every helmet model, we run 32 impact tests on seven helmets across a range of sizes to assess how well each helmet could protect the brain in the event of a crash. The ratings are based upon the test results of helmets SHARP has independently purchased from retail outlets.

Caberg Droid - SHARP

SHARP ratings. The government test motorcycle helmets for their ability to deal with an impact. Some people in the motorcycle industry love the SHARP test and others are cynical. There is an argument that some manufacturers produce helmets with better-rated shells in the areas they know will be tested.

Motorcycle Helmets Guides and Reviews - Biker Rated

Overall the Bolle Sharp helmet is a good, lightweight helmet. It will be a better choice for those who do not frequently open and close their helmet vents throughout the day, but tend to set-it-and-forget-it, and I would recommend trying the helmet on with goggles to make sure that the fit is right for you.
