8 Steps of the Paper Making Process| Domtar Paper Blog

Question Paper Creation and Review The process of developing a Question Paper for use in the next examination diet begins when the Principal Assessor (PA) for each subject/ level selects a range of items from the item bank, to meet the requirements of the particular Question Paper specification.

Examination Question Paper Development Process

The base ingredient of the majority of papers is wood, so the first step in paper manufacturing is the harvesting of trees. Once the trees have been felled and shred down to their trunks, they are transported to a paper mill. Once they arrive the trunks are fed through a bark-skimming drum in which they are forced to collide and rub together.
