### The Scrum Field Practical Advice

It's precisely what it promises to be: a field guide for those already familiar with Scrum and in the midst of a Scrum adoption. Each chapter stands alone and can be read in any order, so it's a breeze to simply locate the problem you're having in the table of contents, and then read the chapter or chapters that address that issue.

### The Scrum Field Guide: Practical Advice for Your First ...

"The Scrum Field Guide" is a nice way to get started with Scrum. It covers the practices through useful stories and advice. Heavier on the advice side. The stories seem realistic and highlight important points. I liked the tables and tips provided. For example how to estimate the first time and how to map pre-Scrum roles.

### The Scrum Field Guide: Practical Advice for Your First ...

Thousands of IT professionals are being asked to make Scrum succeed in their organizations—including many who weren't involved in the decision to adopt it. If you're one of them, The Scrum Field Guide will give you skills and confidence to adopt Scrum more rapidly, more successfully, and with far less pain and fear. Long-time Scrum practitioner Mitch Lacey identifies major challenges associated with early-stage Scrum adoption, as well as deeper issues that emerge after companies have ...

### Scrum Field Guide, The: Practical Advice for Your First ...

The Scrum Field Guide is an excellent practical resource to help break through the barriers of moving into the Scrum method at your workplace. My workplace, like many others, is tentatively approaching agile and scrum as it moves away from the waterfall method - it is picking and choosing the pieces of agile and scrum that it wants to use but is not boldly moving forward.

### 6 Scrum Master Books You Should Absolutely Read

One of these common paradoxes in Scrum projects is that between "predictability" and "adaptability." Traditionalists tend to come down on the side of predictability, while some agilists come down on the adaptability side. The secret, of course, is to balance the two—figuring out how to do appropriate levels of both.
