nature, or even just outside, are endless. There is always something to do, whether it is just taking a walk alone, or hanging out with friends on a sunny day. There is always something that you can do to keep yourself occupied, and that you can have a fun time, while being outside.

Why I Love Nature - The Odyssey Online

Being in nature reminds me that life is so beautiful and precious, and inspires me to live with more intention. Jurian Hughes. My favorite way to get outside is to take a "breath walk.". I walk for five, 10, or 15 minutes, or more, and simply focus on taking deep inhales and exhales.

Why I Love Being in Nature | Kripalu

One of the better known theories, the "biophilia hypothesis," suggests that we love nature because we evolved in it. We need it for our psychological well-being because it's in our DNA. This theory rings true to me. But it's so broad, it also leaves me grasping for more.

10 Reasons Why You Feel So Good in Nature - EcoWatch

Personally, nature reminds me of how small I am in the grand scheme of things. And how much beauty co-exists in a world that can be cruel and unfair. There is beauty all around, if we take the time to notice and enjoy it. There is a sense of awe in nature that makes me feel connected to all we miraculously happen to be apart of.
